AGENCY: Securities and Exchange Commission ("SEC").**ACTION:** Notice of proposed deregistration under section 8(f) of the Investment Company Act of 1940 (the "Act").

SUMMARY OF NOTICE: The SEC proposes to declare by order on its own motion that the registrations of Allied Capital Financial Corporation ("Allied Financial") and Allied Investment Corporation ("Allied Investment") under the Act have ceased to be in effect as of January 5, 1998, the date upon which each elected to be regulated as a business development company ("BDC").

Interested persons may request a hearing by writing to the SEC's Secretary and serving the relevant registrant with a copy of the request, personally or by mail. SUPPLEMENTARY INFORMATION:**Statement of Facts**

1. Allied Financial and Allied Investment, both Maryland corporations and closed-end investment companies registered under the Act, filed Notifications of Registration under the Act on July 21, 1983 and November 23,

1976, respectively. Both companies were formed as wholly-owned subsidiaries of Allied Capital Corporation. Therefore, no public offering of Allied Financial's or Allied Investment's shares were made and they were not required to register their shares under the Securities Act of 1933.

2. Section 54(a) of the Act provides that any company that satisfies the definition of a BDC under sections 2(a)(48) (A) and (B) of the Act may elect to be subject to the provisions of sections 55 through 65 of the Act and be regulated as a BDC by filing with the SEC a notification of the election, if the company: (i) has a class of its equity securities registered under section 12 of the Securities Exchange Act of 1934 (the "Exchange Act"); or (ii) has filed a registration statement pursuant to section 12 of the Exchange Act for a class of its equity securities. On January 5, 1998, Allied Financial and Allied Investment each elected BDC status by filing a Form N-54A and a registration statement under the Exchange Act.

3. Section 8(a) of the Act, which requires registration of investment companies, does not apply to BDC's. After an existing registered investment company has filed an election to be regulated as a BDC, the SEC on its own motion will declare by order under section 8(f) that the company's registration under the Act has ceased to be in effect. The order will be effective retroactively, as of the date the SEC received the company's election. See Investment Company Act Release No. 11703 (March 26, 1981).

For the Commission, by the Division of Investment Management, under delegated authority.

NIPSCO Industries, Inc.

(70-9197)

NIPSCO Industries, Inc. ("NIPSCO"), 801 East 86th Avenue, Merrillville, Indiana 46410, an Indiana public utility holding company exempt under section 3(a)(1), under rule 2, from all provisions of the Act except section 9(a)(2), has filed an application under sections 9(a)(2) and 10 of the Act, in connection with a proposed acquisition of Bay State Gas Company ("Bay State"), a Massachusetts public utility holding company exempt under section 3(a)(2), under rule 2, from all provisions of the Act except section 9(a)(2).

NIPSCO owns all of the issued and outstanding common stock of three public utility subsidiary companies that provide electric and retail natural gas¹ service exclusively within Indiana.

¹ As of December 31, 1997, the NIPSCO gas distribution system was comprised of approximately 13,400 miles of distribution mains and 729,400 customer meters. NIPSCO currently purchases approximately 89% of its total system gas requirements from production in the on-shore and off-shore Texas and Louisiana producing areas, and approximately 8% from production in the Mid-Continent (Oklahoma and Kansas), Permian (west Texas) and San Juan (New Mexico) Basins. It is anticipated, however, that, beginning as early as 1999, with the completion of construction of new pipeline capacity from western Canada to the upper Midwest markets, NIPSCO will begin to purchase significant amounts of lower-cost gas produced in the Western Canadian Sedimentation Basin (Alberta and British Columbia). NIPSCO estimates that, by 2002, western Canadian gas could potentially account for as much as 40% of its total system supply. Currently, NIPSCO subsidiaries have contracted for "firm" transportation capacity and storage service on five different long-haul interstate
